Notes:

- * – stop points are preserved. In order to begin passenger handling, it is necessary to harmonise their opening with the Directorate of the Real Estate of LDz;
- ** – Ventspils station parks that are included in the joint registered point for calculations regarding use of LDz railway infrastructure;
- *** T. p. Valka – the distance must be calculated from all LDz stations to the station Lugazi + 2 km (plus 2 km). Wagon passing was performed from the direction of the station Valga;
- **** – Lacupe – Ilguciems line is open only for shunting operations;
- ***** – traffic is open in the section between stations Skirotava (A and Janavarti parks) and Riga Precu. The section between stations Riga Precu and Sauriesi is open only for shunting operations.
- ***** – traffic is open in the section between the Track post on the 191st km and Track post on the 383rd km;
- ***** – narrow gauge railway line.
