Notes:

\* – stop points are preserved. In order to begin passenger handling, it is necessary to harmonise their opening with the Directorate of the Real Estate of LDz.

\*\* – Ventspils station parks that are included in the joint registered point for calculations regarding use of LDz railway infrastructure.

\*\*\* T. p. Valka – the distance must be calculated from all LDz stations to the station Lugazi + 2 km (plus 2 km). Wagon passing was performed from the direction of the station Valga.

\*\*\*\* – Lacupe – Ilguciems line is open only for shunting operations.

\*\*\*\*\* – traffic is open in the section between stations Skirotava (A and Janavarti parks) and Riga Precu. The section between stations Riga Precu and Sauriesi is open only for shunting operations.

\*\*\*\*\* – traffic is open in the section between the Track post on the 191st km and Track post on the 383rd km.

\*\*\*\*\* – narrow gauge railway line.
